Surgeon Coauthors Article on Published in The Journal of Hand Surgery

ROCKFORD, IL August 26, 2024 ... Surgeon **Anthony Logli, MD** coauthored an article titled, "Investigation Into the Effects of Intra-Articular Steroid on Post-Traumatic Osteoarthritis in Distal Radius Fractures: An Randomized Controlled Pilot Study" published in the August 2024 edition of *The Journal of Hand Surgery*.

The purpose of the study was to identify what affect the treatment of steroid joint injection treatment following an acute intra-articular radius fracture has on future development of osteoarthritis. The article outlines the study methods, results and conclusion collected over a two-year study period.

The Journal of Hand Surgery publishes original, peer-reviewed articles related to the pathophysiology, diagnosis, and treatment of diseases and conditions of the upper extremity; these include both clinical and basic science studies, along with case reports. Special features include Review Articles (including Current Concepts and The Hand Surgery Landscape), Reviews of Books and Media, and Letters to the Editor.

Dr. Logli's practice at OrthoIllinois Specializes in the non-surgical and surgical treatment of the upper extremity. This includes the treatment of acute, chronic, and traumatic conditions of the hand, wrist, elbow, and shoulder in children and adults of all ages.

OrthoIllinois, a division of OrthoMidwest, serves the Northern Illinois region in multi-specialty orthopedics from offices in Algonquin, Elgin, and Rockford, Illinois and offers a full range of bone and joint care including the additional specialties of podiatry, physical medicine and rehabilitation, occupational health and rheumatology. OrthoIllinois offers the ancillary services of physical therapy, MRI, and three out-patient surgery centers. #

... a higher standard of care.
